

Framing and matting a 5 x 7 print

A 5x7 print is the easiest size to frame, as there are many colors and styles to choose from, and they will come with a matt that fits the print well. Simply look for a frame with a matt in which the **opening** of the matt is 5x7. Any size of frame with the opening of 5x7 will work; however, the most common frame size is 8x10.
